Hike to be happy, Hike to be healthy!"
 Dr Stewart Kennedy, past President of the Ontario Medical Association says: "Regular participation in exercise such as walking can help prevent illness, improve fitness, fight depression and prolong life!"

The map will show you where to start and where the trail markers will guide you to the destination you have selected. Please observe the hiking etiquette of **“Leave nothing and take nothing”**

Enjoy the Trails

The Gananoque Trail has been constructed with the assistance of the Town of Gananoque Volunteer Trails Committee, and the financial and moral support of the Town of Gananoque, the Ontario Trillium Foundation, The Lions Club of Gananoque, The Kinsmen Club of Gananoque, and the kindness of the landowners who have allowed the trail to pass over their property.

Kathrine Christensen - cover artwork A dedicated artist, Kathrine Christensen has been involved in the arts in Eastern Ontario for the past 25 years. Her studio is on Marble Rock Road, north of Gananoque, which truly is in the heart of the Thousand Islands. Her recent landscape paintings are acrylics and the ancient wax based encaustic paints, and the results are richly layered paintings of sensual and mysterious fragments of country side. www.kathrinechristensen.com
