To Brenda Guy, Council and Mayor,

As a citizen of Gananoque concerned with the ever increasing costs of living in Gananoque I am urging you to carefully look at the Riviya proposal. Finding a suitable compromise that will allow this project to move forward is paramount. I believe I am part of a silent majority that want to see this project approved.

Bearing in mind that this is Private property, Council must ensure that the owner's rights are heard as well as those against and for the project. Council should be trying to gain some public access via a walkway and working with the owners for a suitable resolution that still allows for the project to be profitable.

Approve the new design and let's move forward. This is good for Gananoque.

Regards,

Neil McCarney
