Subject: South street condo

It has been suggested on many local facebook pages that those of us who cannot make it to the public meetings, or don't want to participate in the madness, email you. So I am emailing you today to share my support for the south street condos. They have made the necessary changes and out town needs this development and the tax base that I will provide. Let's get these condos built and stop making the builders jump through hoops simply because the residents of South Street are upset that they didn't buy on the right side of the street.
